## Bachelor of Accounting Co-op Scholarship

### UTS: BUSINESS BACHELOR OF ACCOUNTING CO-OP SCHOLARSHIP (BACC)

*This is a summary provided to High Schools for inclusion in their School Newsletter. If you would like to adapt it for your own use, please request a Word copy: [Carin.Alberts@uts.edu.au](mailto:Carin.Alberts@uts.edu.au)*

The University of Technology Sydney runs Australia's most successful co-op course – the Bachelor of Accounting. Just look at the list of employers who are actively involved with this program:

Allianz Australia	GrainCorp	NSW Health
ASX	Ingham's	Perpetual
BDO	KordaMentha	Pitcher Partners
Challenger	KPMG	PwC
Coca Cola Europacific Partners	Lendlease	QBE Insurance
Commonwealth Bank	Macquarie Group	Stockland
Cuscal	MA Financial	THE ICONIC
Dexus Property Group	Menivale	Thinkmill
Ernst & Young	Mirvac	Westpac Group
GPT Group	News Corp	

These employers together contribute almost \$3 million annually to this one course alone. The reason? Demand for graduates of the course, who are seen as something special, is very high and will continue to be so for many years due to critical skills shortages in business. This is despite tough economic conditions.

The UTS Bachelor of Accounting has the aim of producing potential business leaders of the future via an accounting career.

The main benefits to students who are selected into the Bachelor of Accounting are a tax-free scholarship valued up to \$56,000 a year of full-time work training, and great career prospects with the major employers who support the course. No BACC graduate has ever missed out on a job, and these job offers are generally made by March of the students' third and final year of study. That might be only 3 years away from where you are now.

Other key benefits of this program, that set it apart from cadetships or other co-op courses, are that it takes only 3 years to complete and that students in the course study, work and play together as a close group of friends throughout that time.

What sort of students are we looking for? All-rounders, achievers and leaders in various activities. Plus you'd need to be interested in a career in business. A high ATAR is not essential, but it will help. Each year we take in students with ATARs in the range 85-100, who have the other skills and experiences to make them ideal business graduates.

And why choose to study accounting? Well, consider that accounting is recognised by big business employers as a highly desirable qualification for graduates to hold, and business leaders today increasingly have this sort of background. This is because the role of accountants has changed radically over the last 10 years; they are now the people called on to analyse the factors behind business success and failure, and who can provide the information needed for critical decision-making.

As a Bachelor of Accounting graduate you will have more potential than virtually any other professional - in terms of long-term employment and salary prospects, rewards and job security, opportunities for travel and working overseas, challenges and job satisfaction.

For further details on the Bachelor of Accounting program, please visit [UTS Bachelor of Accounting](#)
